

Backup as a **Service**

Less worrying, more working
with cloud-powered confidence

Data loss doesn't come with a warning. An always-on backup is one of the best ways a business can defend against disaster.

The Cloud-Powered Solution for Your Backup Plan

A business's most valuable asset is arguably its data. For businesses of every size, few things matter more than keeping it safe.

Segra Backup as a Service (BaaS) delivers always-active cloud-powered peace of mind. Think of it like an insurance policy that helps you get back up and running after disaster strikes.

Features and Benefits

- **Advanced authentication and encryption protocols** ensure maximum privacy and security.
- **Capacity scales up or down** according to your storage needs.
- **Consumption-based pricing** means you'll only pay for what you use.
- **Enterprise-class data protection** works to support your business strategy and security requirements.
- **Cloud-native approach** to data recovery equals higher performance and reliability at a lower cost.
